

CYNTEGRITY

MyRBQM® PORTAL | V7.3.1 RELEASE NOTES

NEW V7.3.1 | UPDATES AT A GLANCE

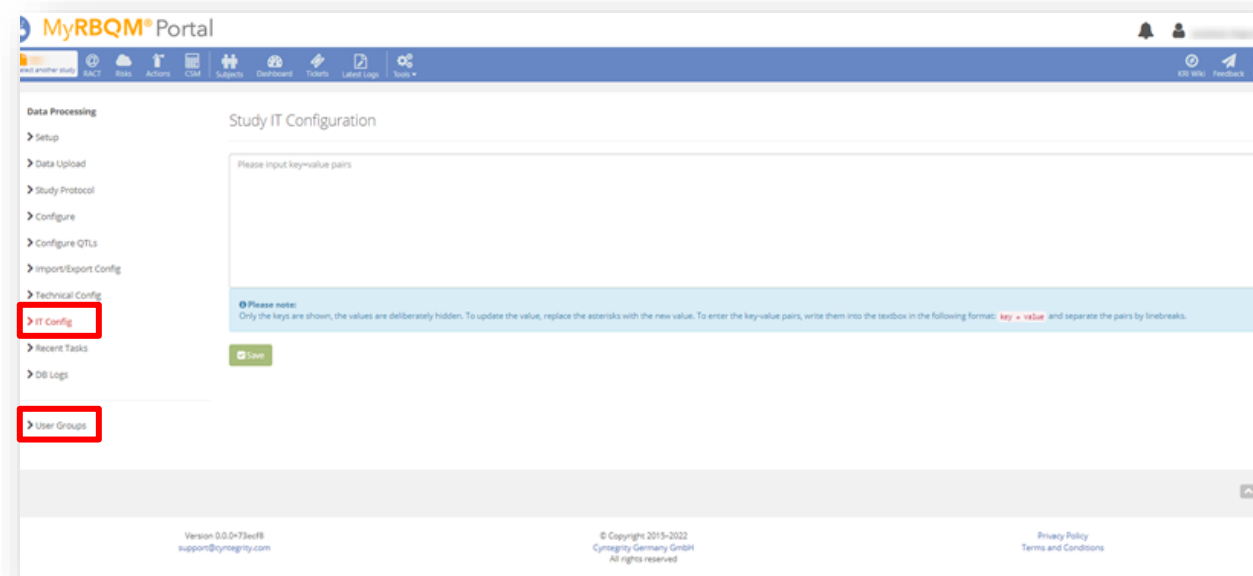

- **Security Updates** | Predicting and preparing for your data security
- **Added Functions** | Easier and faster results
- **System Enhancements** | Always evolving, always improving

NEW V7.3.1 | SECURITY UPDATES

Security updates keep data and users safe from error and noncompliance.

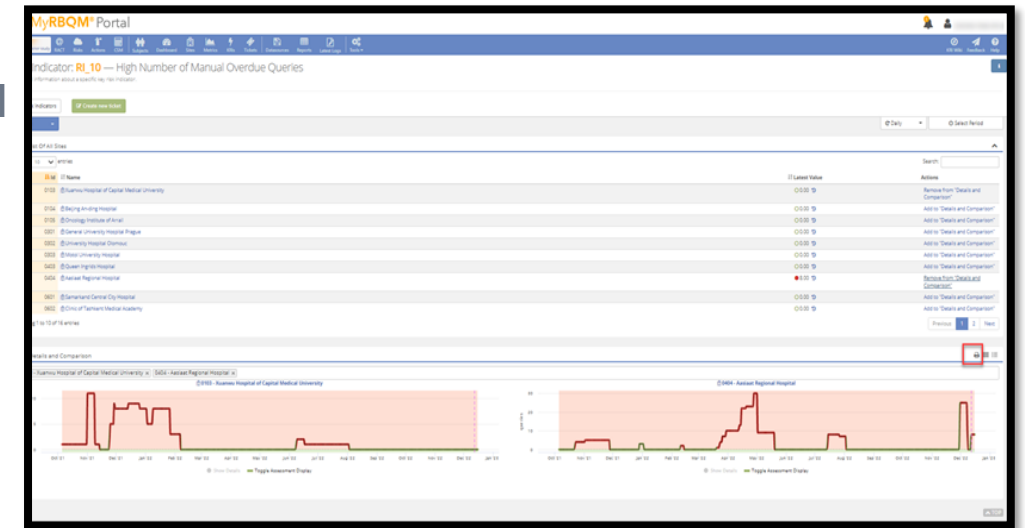

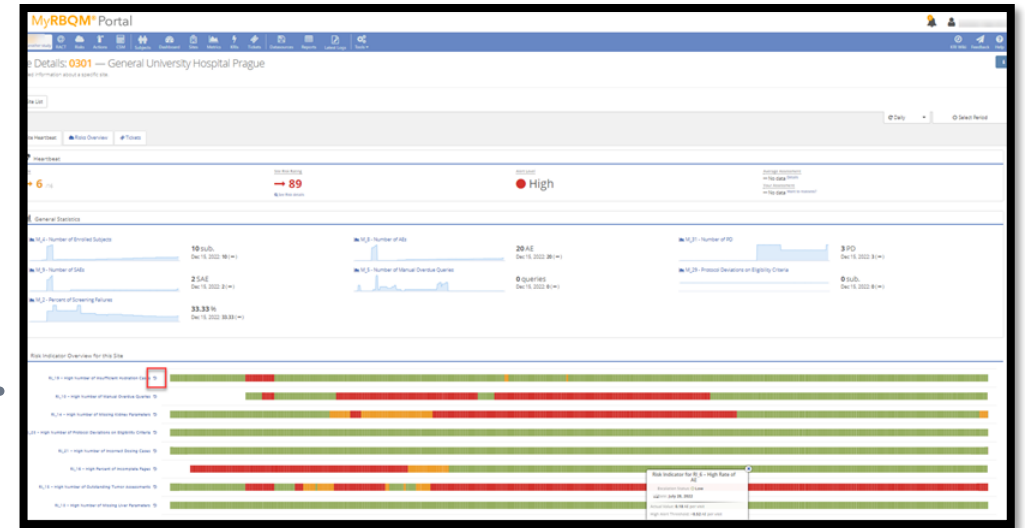

- **Study Settings:** Data Processing has a new menu option: IT Config. This will ease navigation.
- **Streamlined Functionality:**
 - Removed fields we don't need.
 - Refined access of key actions to specific roles only.
 - User groups now have their own menu item.

NEW V7.3.1 | ADDED FUNCTIONS

Added Functions to facilitate faster and easier results.

- ❑ When creating Central Statistical Monitoring (CSM) requests using Study Data Upload, user can now select a specific chronological timeframe for analysis. The user can also save this data for download. This allows more options for data analysis. KRI
- ❑ KRI history is now visible for users.
- ❑ Users can now print KRI graphs directly from the page on which the graph appears.

NEW V7.3.1 | SYSTEM ENHANCEMENTS

Menu items clarified, graphics edited, and privileges changed to eliminate confusion.

- Renamed "Audit" command in Tools drop-down menu to "Study Audit" to differentiate between Study and Company Audits.
- Unretire Studies, View Unretired Studies, View Unretired Studies Data functionality to disappear from retired studies list 1 month after retirement for study safety.
- Vital Timelines made uneditable in MyRBQM to streamline the process for edits. Updates will now be made via data upload.
